

Stanislove

One-Sheet: "Merge"

Stanislove is a singer-songwriter in the roots-blues tradition, blending American acoustic guitar styles into intimate conversations, edgy rants and suspiciously improbable tales. The result is his own, unique blend of "modern traditional," living in the present while paying respect to the famous American artists who influenced him and all the forgotten immigrants who came before.

"Blues fans will warm to the way that Stanislove leads an ensemble band through a strong set of Americana."

- Eric Steiner, WA Blues Society *Bluesletter*

"Merge" is my 2nd RooTsters album, an eclectic collection of acoustic originals.

As an interwoven, two-guitar duo we blend the polyrhythmic interplay of two acoustic guitars, some mean Delta blues harp, a slick, playful stand-up bass and solid brush work on drums into danceable music for happy people; and those who need cheering up. Along with kick-butt Zydeco accordion, keyboard or trombone to mix things up, "Merge" is a treat for Blues and Americana fans tired of too much volume and not enough content. Enjoy boogie the way it was born – unplugged. (Our slogan: "A nude beach for your ears.")
